Become a WiredScore Accredited Professional.

Get recognized as a leader in digital connectivity and help us build a more innovative, collaborative and dynamic future.

Why become a WiredScore Accredited Professional?
—

Deliver new value and services to your clients.
Advise your clients on how they can design new developments and upgrade their existing buildings to stand the test of time.

Create a point of difference.
Technological change happens fast. As a WiredScore AP, you are at the cutting edge of in-building digital connectivity.

Develop your knowledge and skills.
Get exclusive access to industry-leading training and join our dynamic network of forward-thinking professionals.

How to become a WiredScore Accredited Professional.
—

1.
Learn.
Complete the Accredited Professional course online at a time that suits you.

The training will take around three hours to complete and can fit around your other commitments.

2.
Prepare.
Prepare for the Accredited Professional exam by completing a two-hour case study exercise online.

Attend an exclusive AP Question Clinic hosted by the WiredScore Operations team to ask any questions you have.

3.
Qualify.
Now you're ready to take the WiredScore Accredited Professional exam.

Take the two-hour exam online. You must answer 30 questions and the pass mark is 70%.

What will you learn?

—

1.
WiredScore's history.
Learn about our mission to improve digital connectivity and smart technology on a global scale.

2.
Technology trends impacting real estate.
Learn about the shifts in technology trends that we see impacting the real estate industry today.

3.
The value of WiredScore.
Learn how WiredScore certification is helping developers and leasing agents to better meet tenants' digital connectivity needs.

4.
The certification process.
Learn about WiredScore's certification process and the role of an Accredited Professional.

5.
The certification package.
Learn how we enable clients to achieve maximum value from WiredScore certified buildings.

6.
Scorecard overview.
Learn all you need to know about our scorecard, including minimum requirements and credit designation.

What happens once you're a WiredScore Accredited Professional?
